

Access Course-websites on Moodle

13.10.2017

In order to access your course-websites, please follow these instructions:

1. Go to <http://online.haifa.ac.il>
2. Press on "**Access Course Sites....**" of the present academic year.
3. In the login window that opens, type your ID number in 9 digits and your password. If this is the first time you're logging on to the system, your initial password will be your id number (after logging in, you'll be prompted to replace it with a new 5 or more digits\letters\combination password). Note: If you are not and Israeli citizen, please use your passport ID instead of ID Number.

The screenshot shows the login page for the University of Haifa. At the top, there is a blue header with the text "אוניברסיטת חיפה" (University of Haifa) and the university's logo. Below the header, there are two input fields for "ID Number | מספר ת.ז." and "Password | סיסמה". Both fields have a red border and the text "ID Number / Passport No" inside. Below the first field, it says "9 ספרות | 9 Digits". Below the second field, it says "סיסה | Password". There is a blue "Login | כניסה" button and a link for "Reset Password | איפוס סיסמה" below it.

4. After logging into the system, a list of your courses will be displayed on the screen.
5. Choose your preferred Language (at the top).
